GROHE BLUE® CHILLED & SPARKLING

Still, medium sparkling or full sparkling water? GROHE Blue® Chilled & Sparkling combines the modern look of a designer faucet with a high-performance filter, cooler and carbonator – and is as easy to use as an ordinary kitchen faucet. The right handle is used to mix hot and cold tap water as usual, while the left rotary knob, with integrated colored LED display, provides filtered and chilled, medium sparkling or full sparkling water.

The GROHE Blue® Chilled & Sparkling water system is equipped with 5-stage filter technology by BWT that removes all unwanted substances that affect taste and smell of the water. It eliminates chlorine, limescale, heavy metals and particles for a pure and fresh water taste. GROHE Blue® filters are available in different sizes, delivering 160, 400 or 800 gallons of water. GROHE filters are also available with active carbon for regions with soft water or with Magnesium+ technology to add minerals to the drinking water for an enhanced premium taste.

GROHE BLUE® PURE

GROHE Blue® Pure is the alternative for purified, still water straight from your kitchen faucet. Using the unique GROHE Blue® filter technology it turns ordinary tap water into fresh water, removing all of the substances that can impair its taste.

Finished in GROHE StarLight® chrome, the faucet has separate internal waterways – one for filtered water and the other for unfiltered water. GROHE Blue® filter cartridge can purify up to 600 liters (158 gallons) of water and can be replaced in just a few steps. It delivers a pure, refreshing taste experience with no aftertaste of heavy metals, limescale or chlorine.

GROHE TOUCH TECHNOLOGY

Innovative, easy-to-use and immensely practical, the advantages of GROHE's Touch faucets are obvious. Inside GROHE's elegant design is the latest technology to keep your kitchen clean all day long. Touch anywhere on the spout once with your wrist or forearm and cool water springs from the faucet. Touch again and it stops. No hand prints or greasy marks on the handle. No problem.

The benefits in a busy kitchen are both practical and visual. Leaving the faucet's sparkling surface free of marks, this light-touch control prevents cross-contamination in your kitchen caused by germs and bacteria on the handle. It also reduces the burden of cleaning. You can cook up a storm and start and stop the flow of water as often as you like without leaving a trace on your faucet.

Safety is paramount, especially if you have little ones in the kitchen. That's why the Touch function is available with cold water, so there is no risk of scalding. Prefer warm water too? Simply upgrade with our Grohtherm® Micro, a small thermostat fitted under the sink that delivers the perfect temperature every time, with no danger of scalding.

**Simple activation/deactivation
of the waterflow by touch.**

Manual control

GROHE LADYLUX³ CAFÉ TOUCH

Elegant, functional and ergonomic, Ladylux³ Café is the natural choice for today's hard-working kitchen. And now it is available with even more ingenious technology with the introduction of the Ladylux³ Café Touch.

Turn the water flow on and off with just a touch to the spout with your wrist or forearm. No more finger prints to clean and no fear of cross contamination. The sleek design with a wide swivel spout remains unchanged, but the immaculate finish will stay cleaner, for longer. Choose your Touch function in a cold water-version or upgrade with an under-sink Grohtherm[®] Micro thermostat for perfectly controlled warm water and no danger of scalding.

Electronic single Handle

GROHE MINTA™ TOUCH

Modern, timeless, beautiful. GROHE's successful kitchen range Minta™ takes another step with our latest innovation.

The GROHE Minta™ Touch comes with a small but distinctive difference: Enhanced with Touch technology, it instantly reacts to the slightest touch, enabling you to turn it on and off without leaving a mark on its surface. There is no need to use the handle if your hands are dirty from cooking. Just tap the faucet with the wrist or forearm for perfect control every time.

This practical, hygienic technology is seamlessly integrated, meaning Minta™ retains the same gorgeous good looks as before. It's available as a pull-down faucet with a curved C-shaped swivel spout or a pull-out faucet with a striking L-shaped swivel spout—the choice is in your hands.

Minta™ Touch has been approved and recommended for use by the elderly and those with physical disabilities. It has been tested and rated “good” by the Institute for Gerontotechnik for Barrier Free Building, due to its one-touch operating technology and ergonomic design.

GROHE K7®

With the GROHE K7®, we are redefining the focal point of your kitchen.

In the kitchen, a lot depends on skill and timing. Professional chefs know this better than anyone. That is why the K7® was designed with the input of professional chefs to bring the best technology and functionality into the home.

Design and functionality in perfect harmony.

With the minimalist design of the GROHE K7®, designer Paul Flowers has accentuated the aesthetics of high-end, purist kitchens and combined perfect beauty with perfect function. The professional spray can be pulled out, turned and swivelled 360° and operated with one hand. In addition, you can switch back and forth between the spray and mousseur without having to turn off the water. Voilà.

GROHE EUROCUBE® NEW

GROHE Eurocube® is a kitchen centerpiece that exudes architectural appeal with cutting-edge, geometric styling and superior quality.

Eurocube® Semi-pro faucet with a pull-out spray head was designed as a professional tool for cooks who enjoy comfort and convenience in the kitchen. Mounted on a spring hose with 360° movement, the toggle spray function allows for seamless switching back and forth between regular water flow and spray without turning off the water, offering ultimate flexibility and a truly professional performance. Developed in response to the rising number of home chefs who prefer commercial-grade function, this new version of the Eurocube® features a striking appearance in addition to its quality professional features.

Eurocube® also features two of GROHE's trademark technologies. GROHE SilkMove® ensures smooth and precise control of the water flow, while GROHE StarLight® finish provides a scratch and tarnish-resistant surface for a lifetime of beauty.

GROHE LADYLUX³ CAFÉ

Elegance and harmony combined

Ladylux³ Café combines contemporary design and maximum functionality with proven reliability for rigorous everyday use. The body flows elegantly into the wide swivel spout – a classic example of the GROHE design aesthetic – and now comes with an improved mechanism for retracting the pull-down spray.

The Ladylux³ Café mixer with pull-down spray has been completely redesigned with a cleaner spray design and a new dual control button with locking feature, making switching between spray modes effortless. Ladylux³ Café comes in two high-quality finishes: our high-gloss GROHE StarLight® chrome or the durable GROHE RealSteel® with anti-bacterial properties. Whichever you choose, GROHE SilkMove® will ensure long-lasting smooth movement. GROHE SpeedClean® lets you remove limescale from the nozzle with a single wipe.

GROHE MINTA™

One line for every design requirement

It's not just any kitchen – it's your kitchen, your interpretation of modern interior architecture. It's a place where well-thought-out details, form and function come together to create something very special. And it's the perfect setting for Minta™.

The timeless classic: modern, attractive and versatile

Available with a choice of three striking spout versions that blend harmoniously into the modern kitchen aesthetic. Reminiscent of the graphic forms of the letters C, U and L, they feature a tubular swivel spout and pull-out mousseur or pull-out spray, while the comfortable height of the spout makes it easier to fill tall pots.

The elegant operating handle ensures easy and precise operation thanks to GROHE SilkMove® technology. GROHE StarLight® technology guarantees a long-lasting shine to the chromium finish. Fans of the professional kitchen look will particularly enjoy the versions with stainless steel look and the ease with which water savings can be made using the patented GROHE EcoJoy™.

GROHE BRIDGEFORD®

For those who surround themselves with the comfort of a simpler time, Bridgeford® completes a traditionally styled kitchen without sacrificing 21st century performance. Old-world detailing is perfected on the Bridgeford® wideset, bridge and bar faucets, while the pull-down dual-spray model brings modern functionality to a Victorian-styled kitchen. Bridgeford® kitchen faucets feature GROHE SilkMove® technology for effortless water control and are available in GROHE's durable oil rubbed bronze finish, brushed nickel InfinityFinish™, and striking GROHE StarLight® chrome.

GROHE PARKFIELD®

The GROHE Parkfield® faucet is inspired by the simplicity of nature and the elegance of classical forms. It offers users a tactile experience with a rounded handle and curved body, beautifully highlighted by both the GROHE StarLight® chrome and Supersteel finish options. Ease of use is at the heart of Parkfield®, with a pull-out spray with locking feature that lets you switch easily between two spray modes, perfect for rinsing the sink or washing vegetables. The faucet also incorporates GROHE's SpeedClean® nozzles, which lets users remove limescale with a single swipe of the finger. Parkfield's® mix of comfort, flexibility and perfect control not only makes preparing food easy, but cleaning up afterwards is a breeze too.

GROHE EURODISC® COSMOPOLITAN

Leaves no wish unfulfilled

Eurodisc® Cosmopolitan was designed for discerning individuals who recognize and appreciate attention to detail. The high-gloss chrome finish elegantly emphasises the tapered edges. You can expect the same perfection in the functionality of the faucet as in the form.

You can choose between three different spout heights, different versions and countless installation options. Whatever choice you make, you are guaranteed an attractive appearance and easy operation over the lifetime of the faucet, thanks to GROHE SilkMove® cartridges and GROHE StarLight® chrome finish.

33 330 002

Dual spray pull-out

GROHE CONCETTO

Consistently cylindrical

Concetto combines stylish minimalist design with superior ergonomics to reflect the core values of the Cosmopolitan design. Consisting of a series of cylinders, an arched or medium height spout rises elegantly from the sink. Its purist beauty is highlighted by the high-gloss GROHE StarLight® chrome finish, which repels dirt and prevents tarnishing. GROHE SilkMove® technology enables fingertip control of water flow and temperature. The features are even more attractive when offered at a modest price.

These popular faucets with a flat and high spout are combined with medium-height variants to ensure the right kitchen faucet in the distinctive Concetto design for every sink and requirement – optionally in a stainless steel look.

The Concetto range also offers variants for functional kitchens for installation in front of a window, with dishwasher shut-off valve or for low-pressure applications.

GROHE EUROSMART® COSMOPOLITAN

The perfect entry-level faucet from GROHE

The new Eurosmart® Cosmopolitan collection of kitchen faucets combines the clean, geometric lines of modern architecture with durable technology. They offer an impressive balance of modern aesthetics and excellent ergonomics. The swivel spout is convenient and easy to use – the ideal complement to any sink.

Proven technologies such as GROHE SilkMove® for precise and smooth control and the high-gloss GROHE StarLight® chrome finish ensure the functionality and a flawless appearance, even after many years of use. The GROHE EcoJoy™ version of the Eurosmart® Cosmopolitan kitchen faucet effortlessly saves water and energy. GROHE EcoJoy™ reduces the maximum flow rate to 5.7 litres per minute – although it will feel like much more. With Eurosmart® Cosmopolitan, you get these advanced features and GROHE quality at an attractive price point.

GROHE SUPERSTEEL

SUPER LOOKS — SUPER RESISTANCE

To fulfil its purpose, a kitchen faucet needs to be resistant. GROHE's SuperSteel surface more than fits this bill. In fact, the innovative PVD coating is ten times more scratch-resistant than chromium. The matte stainless steel surface not only looks unbelievably good, but also demonstrates its resistance in daily use. Fingerprints on the surface? Not here. And nowhere on the surface for microbes and bacteria to lurk either, which greatly reduces the microbial count. So the surface of the faucet stays hygienically clean, day after day.

GROHE BLUE®

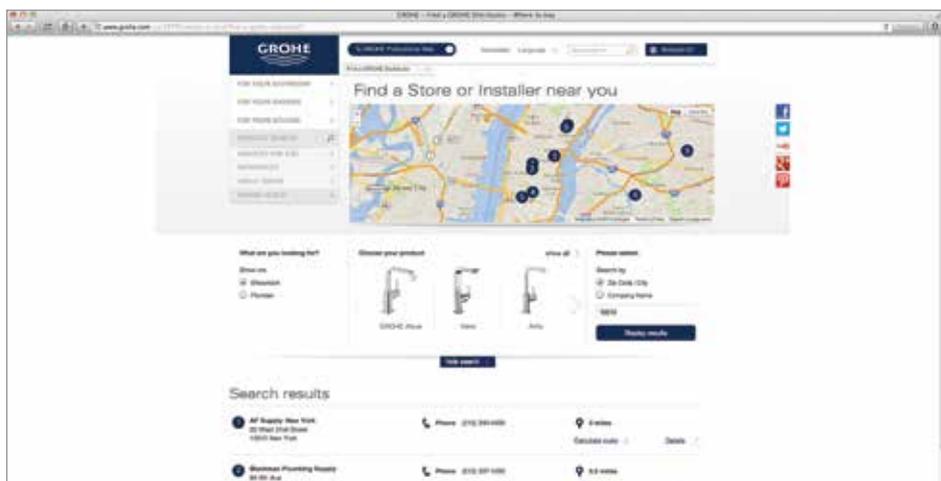

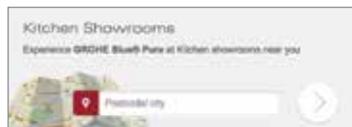

CALCULATOR

Calculate how much money you can save with GROHE Blue®.

The image shows a screenshot of the GROHE Blue Calculator tool. On the left, there is a blue sidebar with the GROHE Blue logo and a faucet image. Below the sidebar are two buttons: 'Private customer' and 'Business customer'. The main content area shows a comparison of costs. It starts with 'I recommend the following faucet: GROHE Blue® Central & Spooling 1/2" x 1/2" (standard and long water)'. Below this, there is a table with two columns: 'Cost of your water (1/2" x 1/2")' and 'Cost of using GROHE Blue®'. The first row shows 'Standard 1/2" x 1/2" (standard and long water)' with a cost of '\$ 17,884.00'. The second row shows 'GROHE Blue®' with a cost of '\$ 989.21'. The third row shows 'Save annually*' with a value of '\$ 16,894.79'. Below the table, there is a 'Print result' button and a 'Back' button. At the bottom, there is a small disclaimer: '© 2012 GROHE.
