...Are Growing.

Unlock your imagination like never before.

**Freedom to create.
Choose any bowl.**

When you install the Geberit system, you're not just getting the best in-wall tank and carrier available. You get the design freedom that only Geberit offers: compatibility with all wall-hung toilets made by every major ceramic manufacturer. Beware of "proprietary" claims and dedicated bowl/carrier combinations. No other carrier gives you the flexibility of the Geberit system.

For a complete listing of wall-hung toilets compatible with the Geberit system — including WaterSense listed models — visit → [geberit.us](https://www.geberit.us). If you're looking for more ideas and inspiration, use your smartphone to scan the code below or point your web browser to → [mygeberit.com](https://www.mygeberit.com).

Why Buy Geberit

For over 125 years, Geberit has focused on innovation, quality and reliability. More than 50 years ago, Geberit introduced the first in-wall system, and, ever since, the Geberit system has enabled designers and homeowners to create unique spaces by lifting the toilet off the floor. Geberit systems:

- achieve a clean, modern look
- have a greater flexibility of toilet placement in a bathroom
- improve accessibility, more open space and better hygiene

When you buy Geberit, you buy from the originator of the wall-hung concept.

Go ahead and choose the perfect toilet for your new bathroom. Then, make sure that Geberit is behind the wall.

Geberit North America is part of the Geberit Group, a European market leader and global provider of sanitary technology. Located in Des Plaines, Illinois, Geberit North America provides concealed tank and carrier systems for wall-hung and floor-mounted toilets and fixtures. Geberit systems improve the look of any bathroom by hiding the unsightly toilet tank. Replacing a standard tank and toilet with the Geberit system results in more usable space, improved hygiene and better accessibility. The unique dual-flush valve saves water and is practically maintenance free. Monolith is Geberit's newest product – a unique alternative to the traditional floor-mounted toilet and tank. Geberit also offers cable-controlled bath waste and overflows in a variety of designer finishes. Critical working parts are outside the waterway, ensuring years of trouble-free operation.
