PIONEERING IN FORM AND FUNCTION.

The New Talis Faucets – Now Also with Select Technology.

SUPERB INNOVATION. EXCLUSIVE DESIGN.

How Hansgrohe and Phoenix Design Created a Classic.

The history of Hansgrohe faucets starts with a single word: Perfection. From the beginning, it was our aim to use intelligent solutions to create an exceptional experience in the bathroom. This is why we have been collaborating with renowned designers since 1970. The result: Innovative form and function for faucets, more than 100 international design

awards, and a regular top position in the iF Design ranking. Created in collaboration with award-winning firm Phoenix Design, the new Talis S and E faucets build on the previous Talis S design, signaling a new generation of Hansgrohe faucets, some of which include Hansgrohe's signature Select technology – bringing push-button technology to the bathroom sink.

Talis S

Talis S, Talis Select S, Talis E and Talis Select E

2007

The birth of Talis S. Hansgrohe and Phoenix Design introduced a new simplicity into the bathroom – an absolute success from the beginning.

2016

Presentation of the entirely redesigned Talis S and Talis E lines, available in various heights and finishes. In addition, certain models feature Select technology.

Masters of good design: Managing partner Tom Schönherr founded Phoenix Design together with Andreas Haug in 1987.

What drives us.

Outstanding design and perfect function is our goal, our promise – yes, even our passion, for every single one of our products.

Talis Select S 190
Chrome Finish

TALIS S FAUCETS – PERFECTION IN CLEAN AESTHETICS.

The ultra clear, minimalistic design of the Talis Select S faucet adds a stylish accent to this modern bathroom ambience. With its precise lines, it supports the harmonious overall effect, and appeals not least for its innovative functionality.

Simply scan this code to watch
this product brought to life.

TALIS E FAUCETS – ELEGANCE WITH PERSONALITY.

The organic design language of the Talis E faucet is something to be seen. With its elegant combination of flowing lines, gently sweeping curves and the sleek body, it lends this bathroom a particularly refined character.

Talis E 240
Brushed Nickel Finish

PUSH TO TRANSFORM YOUR BATHROOM.

Select Technology – Another First by Hansgrohe.

In a world where everything seems to be getting more and more complicated, it is often the simplest things that make life more pleasant. Which is why we ask ourselves – what changes can we make to make your daily life even easier? For the answer, we sought inspiration from buttons that empower us and enrich our life – from a

button on a shiny elevator to the start button on a sportscar – buttons give you control and make life more engaging. So together with Phoenix Design, we developed a product innovation that is as brilliant as it is simple – the Select button. Since then, it has revolutionized the way we use water, setting new standards in comfort and handling.

Select cartridge for easy, intuitive operation: Push handle to turn water on and off, and turn to adjust temperature. Our faucets are tested to last hundreds of thousands of cycles to ensure that your experience with every product is second to none – quality meets innovation.

TALIS S FAUCETS – PERFECTION IN CLEAN AESTHETICS.

Talis S.

The sleek body and slender handle come together to create a classic faucet icon. The Talis S faucet personifies timeless aesthetics and superb functionality.

Talis Select S.

The harmoniously reduced shapes of the Talis Select S faucet are free from distraction. Its Select button blends seamlessly with the overall aesthetic appearance.

The clean design of the Talis S faucet handle ensures stylish functionality.

SELECT

Push the Select button to turn the Talis Select S faucet on and off. The temperature is controlled by turning the handle to the right or the left.

TALIS E FAUCETS – ELEGANCE WITH PERSONALITY.

Talis E.

The lever handle of Talis E faucet combines organic shapes, precise edges, and sleek surfaces.

Talis Select E.

Clean contours along with a stylish body highlight the elegance of Talis Select E faucet and its innovative Select button.

Push the Select button to turn the Talis Select E faucet on and off. The temperature is controlled by turning the handle to the right or left.

The lever handle of Talis E faucet is perfectly aligned with the spout.

MADE-TO-MEASURE – COMFORT AT ALL LEVELS.

A faucet has to fulfill a wide range of requirements. With the Talis S and the Talis E lavatory faucets, there is no need to compromise in function or

comfort – available in various heights. We have a name for the space between the faucet spout and the sink: ComfortZone. The taller the faucet, the bigger the ComfortZone.

It is the optimum combination of faucet and sink that creates made-to-measure comfort. Find your own personal solution with Talis S and Talis E faucets.

ComfortZone – defines the distance between the water as it comes out of the faucet spout and the base of the faucet. The taller the faucet, the bigger the ComfortZone.

Multiple faucet heights offer the perfect solution for any washbasin.

FAUCET TECHNOLOGIES.

Passion for Water, Innovations for the Bathroom.

EcoRight.

EcoRight technology delivers water savings to your bathroom faucets that does not come at the expense of great performance. All Hansgrohe lavatory faucets are 1.2 gallons per minute or less.

QuickClean.

Our faucets have flexible silicone aerators. Any deposits are quickly removed by rubbing a finger over them. Well-maintained limescale-free products not only look much nicer, they work better and last longer.

ComfortZone.

Defines the distance between faucet spout and base, ensuring a perfect fit for every combination of faucet and sink.

Select.

Select cartridge for easy, intuitive operation: Push handle to turn water on and off, and turn to adjust temperature.
