SpaLet® Cleans,
Soothes and
Comforts

How can we be so sure you'll
love your first experience
with our SpaLet Collection?

**It's simple: You'll feel cleaner and
fresher than ever before.**

We've captured the well-being of a spa visit and combined it with advanced technology to create our SpaLet Collection. Engineered to completely clean, fully refresh, and make every trip to the bathroom a more comfortable experience, the SpaLet delivers a relaxing stream of warm water where it's needed most. Available in toilet and seat models to satisfy every indulgence, these smart products are designed to replace old habits with improved hygiene and healthier living.

Proper Care Requires Water

Effective and easy to use, the SpaLet® ensures better hygiene, makes every trip to the bathroom more comfortable, and improves well-being for the whole family. The SpaLet Bidet Seat is designed to do more than provide gentle cleansing of delicate front parts and wash away waste from the rear. The comforting warm water spray improves gynecological health, soothes during pregnancy and after childbirth, and relieves the itch and irritation of hemorrhoids. Proper care down there requires water, plain and simple.

HELLO, WATER*

Instant Heat

Warms the water, avoiding an icy blast

Heated Seat

Takes the chill out of nighttime treks

Spray Strength

For vigorous waste removal or a gentle cleanse

Nozzle Shutter

Protects nozzles when not in use

Nozzle Position

Adjusts for complete, targeted cleaning

Slow-Close Seat

Keeps things quiet and civilized

Make Paperless a Priority

Warm, soothing water achieves a feeling of clean unmatched by paper or wipes. The targeted cleansing of dual, adjustable nozzles and adjustable water pressure results in a hands-free experience that is gentler and more thorough than paper while promoting improved hygiene. Given the many comfort features engineered into each SpaLet, it's easy to see that water wins every time.

NO PAPER, NO PROBLEM

Gentle and Soothing

Water alleviates irritation of paper

Warm Air Dryer

Replaces paper patting

Cleaner, Fresher Feeling

Water wins over paper

Relieves Itch and Soreness

Gentle, warm cleanse soothes

Hands-Free Hygiene

No wiping means no touching

Good for Environment

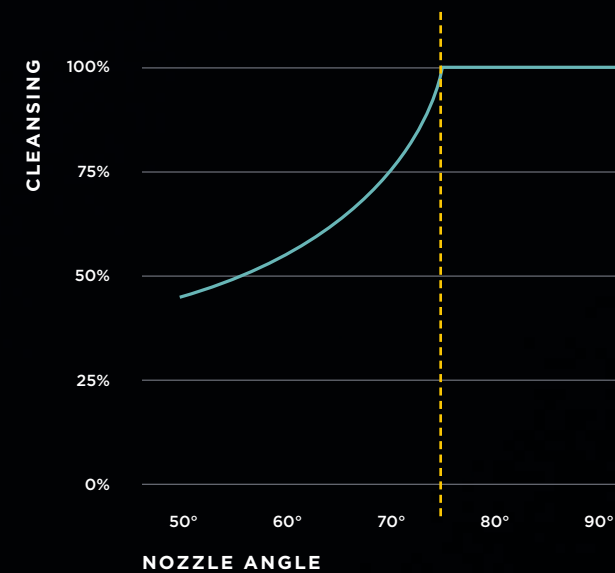

Reduces paper consumption

*Not all features listed here are available on every SpaLet Bidet. See pages 18-19 for specific product details.

Cleansing from the Ultimate Angle

We created a comfortable washing experience that's more hygienic too. The most thorough wash can be achieved via a vertical spray instead of the typical shallow angle. However, a vertical angle can also increase the chance of dirty water splashing back onto the nozzle. To solve this problem, we benefit from decades of experience in this category. Our extensive studies on nozzle design have determined the ultimate angle for achieving the best wash while keeping the nozzle hygienic.

SHOWER SPRAY ANGLE DETERMINES CLEANSING PERFORMANCE

The relationship between shower spray angle and cleansing power according to research. Test conditions: ink spot (test media) = $\Phi 15$, shower spray height (strength indicator) $h=1.5m$, cleansing time $t=10sec$, cleansing distance $h=6.3cm$

SpaLet® Seats benefit from years of ingenuity and feature the ultimate nozzle angle.

Why does this matter?

Shallower spray angles have weaker cleansing power and spray waste forward.

The ultimate spray angle ensures that waste is washed down into the bowl and provides a more effective cleansing experience.

Personalize Your Cleansing Experience with Five Indulgent Spray Options.

BACK POSTERIOR CLEANSING SPRAY

BACK POSTERIOR OSCILLATING CLEANSING

BACK POSTERIOR MASSAGE CLEANSING

FRONT FEMININE CLEANSING SPRAY

Measure For The Perfect Fit

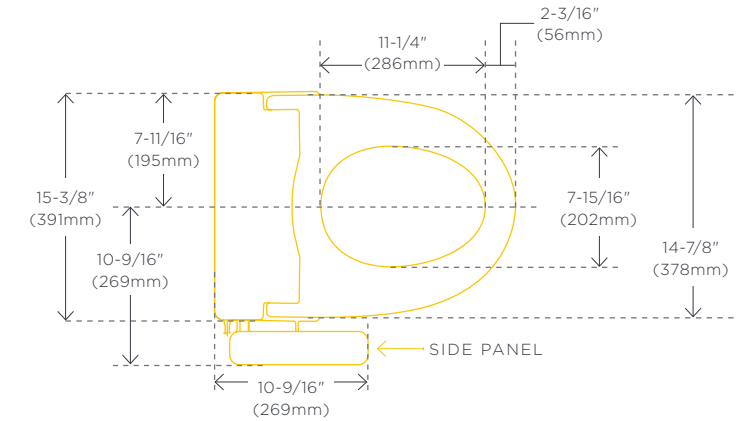

SpaLet Seats are designed to fit most elongated bowls. But it's a smart idea to measure yours first to make sure it fits the model you choose. Use the following dimensions as a guideline.

Measure First

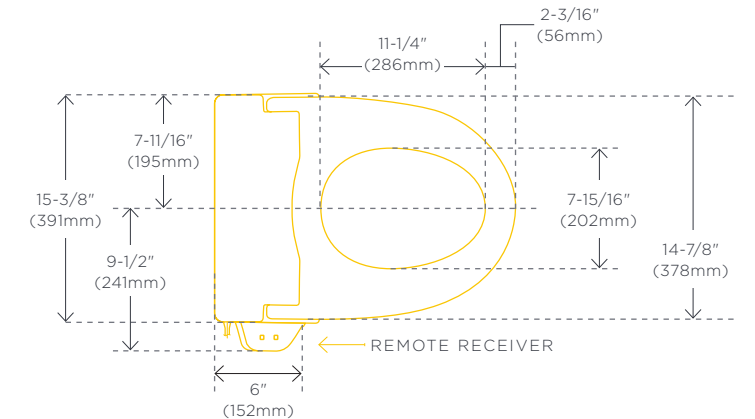

Use these measurements to ensure that your current toilet will accommodate any SpaLet Seat.

Use these measurements to ensure that there is enough space *around* your toilet to accommodate the Advanced Clean™ 1.0 SpaLet Bidet Seat.

Use these measurements to ensure that there is enough space *around* your toilet to accommodate the Advanced Clean 2.0 SpaLet Bidet Seat.

The SpaLet® Bidet Collection

Our seven sleek models satisfy every indulgence.
