Bath as Art

Art is the tangible expression of imagination and skill combined to create an experience and evoke a response. This is the Boutique Collection from MTI. The embodiment of MTI's commitment to high design, sensuous beauty and personal wellness.

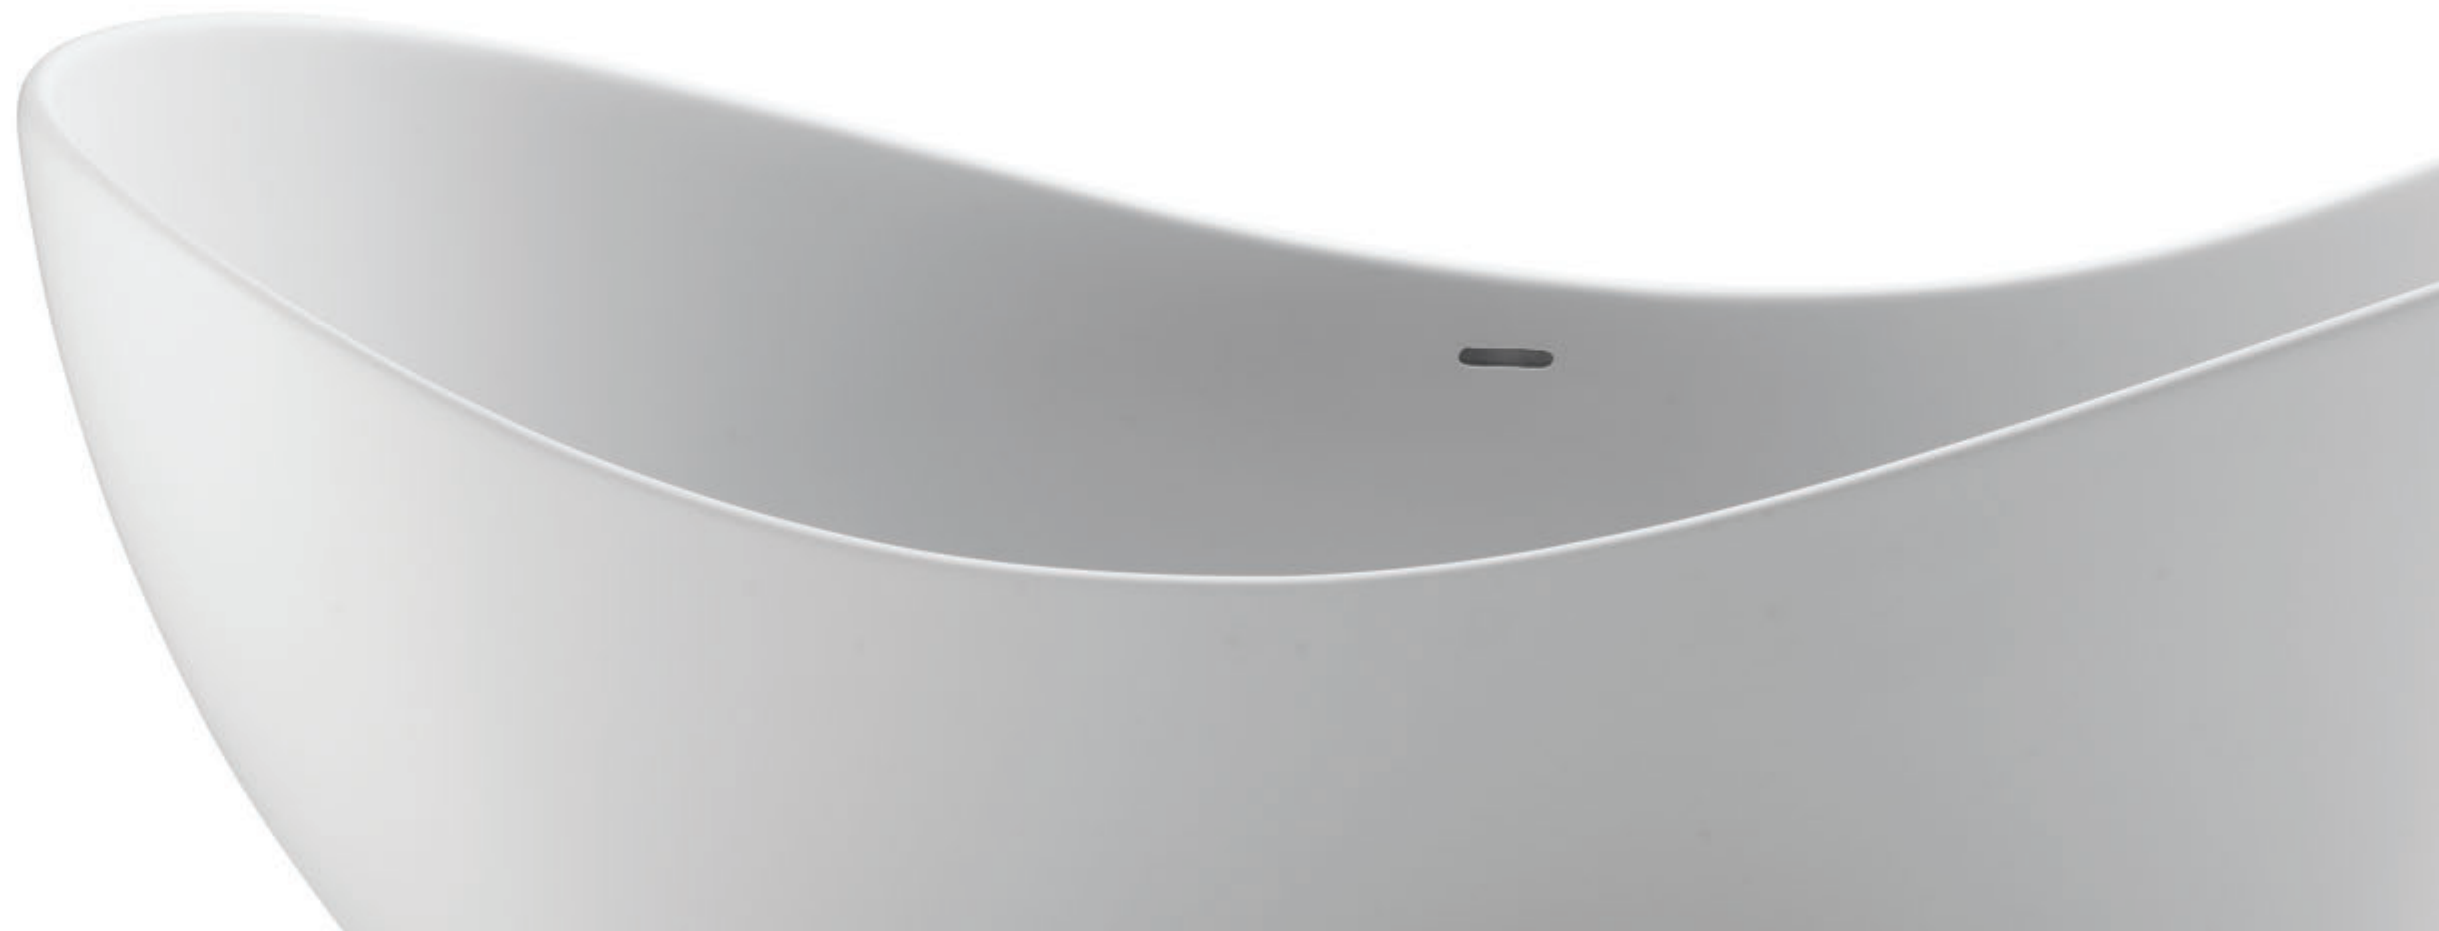

These are purposefully designed vessels that are beautiful in their form and effective in their function. Works of art that saturate the senses and create a unique experience with the luxurious, smooth touch of molded stone. Sculptured forms handcrafted in the USA by the skilled artisans of MTI.

Feel the difference. Experience the luxury. Indulge yourself with a work of art from the Boutique Collection.

The Boutique Collection

MTI's Boutique Collection offers you extraordinary products of inspired, award-winning designs. Works of art that will transform your bathroom into nothing less than the extraordinary.

Tubs, sinks, Counter-Sinks, Vanity Sinks, shower bases and versatile options. All created in MTI's proprietary SculptureStone®: 100% solid, mostly organic, beautiful and easy to maintain. For the art of the Boutique Collection also lies in what is not visible.

Soaking Tubs and Air Baths

Striking vessels that epitomize the extraordinary. Inspired, award-winning designs. Enjoy your Boutique tub as a simple soaker or with the enhanced therapy of an air bath. All handcrafted in SculptureStone®.

Bathtubs

#185

Juliet
72" x 36"

Edgy yet graceful, the Juliet has an organic design and fluid lines that flow asymmetrically in counterpoint.

- ★ **AWARDED**
2014 Good Design Award
2013 Interior Design Best of Year Honoree

Sinks, Counter-Sinks & Showers

MTI's Boutique Collection includes more than tubs. There are vessel sinks, semi-recessed sinks, sinks for undermounting, Counter-Sinks, Vanity Sinks and shower bases. All are constructed in MTI's proprietary SculptureStone®, a mixture of ground minerals and high-performance resins that are liquefied, poured and then hardened. The result is molded stone, 100% solid thru-and-thru. Beautiful, durable and easy to maintain.

Boutique Collection Sinks include:

- Bathroom sinks that are vessel-style, semi-recessed or undermountable.
- Bathroom Counter-Sinks that have the sinks seamlessly integrated in counter tops. Completely customizable. Counter-Sinks can also be wall-mounted.
- Bathroom Vanity Sinks are seamless, with integrated counter, sink, legs or sides. Very customizable to let you design the perfect vanity sink.
- Wall-mounted vanity sinks where bathroom space is at a premium.

Counter-Sinks

INCLINE

The Incline sink bowl measures 19" x 15" and is raked toward an integrated slotted drain that runs across the full length. The Incline, also available in custom longer lengths, is shown in a double bowl configuration.

Counter-Sinks

ROUND BOWLS

Round bowls are available in five sizes and two styles. The Luna models have concave bowls and the Halo models have vertical sink walls. Two 17" Halos are shown above in a custom cantilevered counter top.

WYMARA

The Wymara sinks feature a bowl that slants downward where a full-length matching cover conceals the drain. Available in three sizes. As shown above, MTI Counter-Sinks can be positioned offset to the left or right.

PETRA

Petra trough sinks are available in 6 lengths from 40" up to 64", some with two drains. Like all Counter-Sinks, they can be vanity- or wall-mounted.

ALISSA

The graceful Alissa oval sink is shown above in double bowl configuration with optional backsplash. The position of the bowls in all MTI Counter-Sinks can be customized front to back and left to right.

PETRA

Petra rectangle sinks are available in a variety of sizes ranging from a very compact 13" up to 20" in length. MTI Counter-Sinks can be specified in various lengths and heights.

Continuous, Award-Winning Designs

The Continuum sink is one of our most awarded products, designed by one of the foremost designers in the kitchen and bath industry, Matthew Quinn. Its innovative design uses the countertop cut-out, which sits on three leveling "feet", to form

a "faux bottom" of the sink which has an actual depth of 5-1/4". This creates an illusion of the striations of the counter material flowing "through" the sink. Shown is the oval model, and it is also available in round, square and rectangle shapes.

BEST of year INTERIOR DESIGN
2015

Vessel, Semi-Recessed and Undermount Sinks

WYMARA

The Wymara sinks feature a bowl that slants downward where a full-length matching cover conceals the drain. Available in three sizes, the longest one shown is only available as undermount, while the other two can be either vessel or undermount.

LUNA

The graceful Luna sink is available in three sizes with different depths. All three are available as vessel sinks with round or flat rim, and all three can be undermounted.

PETRA

There are ten models of the Petra trough sinks from 41" up to 66". There are vessel and semi-recessed models, some with two drains. All can also be undermounted.

ELISE

The Elise sink shown above is just one of many semi-recessed sinks available that mimic or complement the designs of many Boutique Collection tubs.

Vanity Sinks

Personalized, Versatile Elegance

MTI Vanity Sinks are simply elegant, and the possibilities for personalization are many. There are different lengths and depths from which to choose, and depending on the vanity length, one or two sinks may be selected from a variety of sizes and shapes. View full list of Vanity Sinks At-a-Glance on page 55.

You can select waterfall-style sides (shown above) or parsons-style legs (shown below). You can also specify support on only one side, when the other side will be mounted to a wall. As shown below, a "floating" shelf is also available in various sizes.

Shower Bases

MTI's Boutique Collection shower bases are constructed of the same SculptureStone® material as the tubs and sinks.

These low-profile shower bases are available in five lengths. All models feature a concealed drain and a low-profile, multiple-threshold design for versatile installation, great looks and easy entrance. They are slip-resistant, and because the material is non-porous they are easy to maintain.

BOUTIQUE COLLECTION SHOWER BASES:

- Hidden end drain.
 - A low-profile for ease of entrance.
 - One-piece construction for easy, grout-free installation.
 - Slip-resistant material.
 - Multiple-threshold design: can be specified from the factory to accept glass enclosures on one, two or three sides.
- Available in five sizes:
- MTSB-SS4832HD ◦ 48" × 32"
 - MTSB-SS6032HD ◦ 60" × 32"
 - MTSB-SS6036HD ◦ 60" × 36"
 - MTSB-SS6636HD ◦ 66" × 36"
 - MTSB-SS7236HD ◦ 72" × 36"

Feel the Difference

Your bathtub is a piece of art, a unique sculpture. Everything is handmade by our talented team of artisans.

Only dedication and pride of workmanship can describe one of our craftsmen spending up to 8 hours getting that coveted luxurious matte or gloss finish.

SculptureStone®

MTI's special, mostly organic material we use to create luxurious products that are absolutely solid, sensuous to the touch and most assuredly works of art.

Ⓐ Our proprietary SculptureStone® material

Ⓑ Competitor's material

A large selection of award-winning designs. Therapeutic, hygienic air bath systems. A handcrafted finish that is incredibly smooth. SculptureStone® material is solid and non-porous for easy care and long life.

SCULPTURESTONE

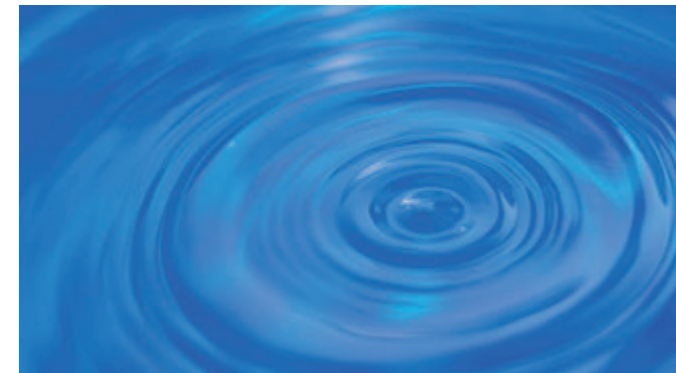

To create these masterpieces we leverage cutting-edge technology combined with old-world craftsmanship. The SculptureStone material is Engineered Solid Stone®, mostly rock minerals combined with high-performance binding agents, that give us the flexibility to bring inspired designs to life.

Our highly-skilled artisans then hand finish every piece to bring you a finished product that is high in aesthetics, river-rock smooth and incredibly durable.

HERE'S WHAT GOES INTO ALL OUR BOUTIQUE COLLECTION PRODUCTS

- MTI Boutique Collection products are manufactured using a proprietary, luxurious SculptureStone® material, also referred to as Engineered Solid Stone.
- Approximately 65% of the material is organic: natural stone that is comprised of various minerals.
- This is refined into a powder and combined with high-performance resins that are binding agents.
- The material is liquefied, poured into a mold, cured and hand-finished.
- The result is a solid work of art: molded stone. Smooth, 100% solid, luxurious.
- No top coating, layers or hollow areas.
- This material is non-porous, stain-, mold- and mildew-resistant, making cleaning and maintenance easy.

DESIGN YOUR EXPERIENCE

Soaking Bath

The most elemental form of hydrotherapy is the soaking bath, where heat and water's natural buoyancy foster deep relaxation. All MTI soaker tubs are ergonomically designed for maximum comfort, and our SculptureStone helps keep bath water warm longer. And this means a longer soak for you.

Air Bath

The blissful combination of water, heat and air movement creates an incomparable effect that is as therapeutic as it is relaxing. The movement of millions of tiny air bubbles contacting the skin activates the lymphatic systems, increases blood flow, stimulates endorphins and relieves sore muscles and other painful ailments. Air flow can be adjusted from soft to stimulating.

Our Culture

J.C. HENRY – OUR FOUNDER

J.C. Henry founded our company in 1988. He was a self-made man, a driven entrepreneur and resourceful in developing unique manufacturing processes still used today.

Against sound advice, he started a company in the challenging financial climate of a time when the interest rate was over 20% and his own age was nearing 60. This spirit of risk-taking was inspirational and integral to MTI's culture. He relentlessly pursued the highest quality of product as the only acceptable outcome.

KATHERINE ADAMS – OUR CEO

In 1998 J.C. chose his successor, our CEO Kathy Adams. Building on J.C.'s legacy of the highest quality products, Kathy applied her business background and brought a new focus on superb award-winning designs to establish MTI as the luxury brand it is today.

The nucleus of MTI's thriving culture is dedicated individuals who love what they do. Kathy is the educator who defines an MTI leader as one who enables others to succeed.

NEXT CHAPTER - EMPLOYEE OWNERSHIP

We are honored and humbled to be chosen numerous times as one of the top places to work in Atlanta.

When J.C.'s health deteriorated and an acquisition deal fell through in 2001, MTI employees invested their 401k savings and refinanced their homes to purchase the company from J.C. so that we could continue. Since then MTI has been an employee-owned company, which is a rare occurrence in today's business world.

It is not uncommon at MTI to have many families working together and many employees working more than 10 years with us. We strive to build a strong community within MTI and our neighborhoods.

CULTURE OF EMBRACING CHANGE LEADS TO INNOVATION

By consistently listening to the market, and embracing change, MTI thrived. MTI is the first company in the USA to launch a full product line in our proprietary Engineered Solid Stone, which we call SculptureStone®. Some of our most important innovations include the most hygienic air bath systems and patents on the Fill-Flush® cleaning system and Gentle Jet® laundry system. MTI was also a leader in moving the industry to be design-driven and, through its Woodward Mill House, created the most creative, exciting and experiential training program in the industry.

AWARDS

MTI has received more than 100 awards for design excellence and product innovation with Russell Adams as our Chief Design Officer and President. The common thread within the design team's philosophy is "design with purpose". More than creating products that are merely high in design aesthetics, the design team maintains a focus on creating products that will satisfy the needs of people and enrich their lives.

CUSTOMIZATION

At MTI we offer the ultimate in customization, working with you to create products that are uniquely yours. You can also select from some creative options we offer as well.

And if you work in the hospitality, multi-unit housing or spa industries, our Project Group together with our Design Studio will work with you to modify a current design or make a custom one.

We have a can-do, will-do attitude.
