TORINO

Collection

Strike a stately impression with the elegant Torino vanity collection. Showcasing distinctive Neoclassical roots, the Torino's elegant silhouette is composed of straight columns with Doric-esque plinths, pyramid feet, and recessed panel faces trimmed with refined beveled borders. The brushed metal hardware rounds out the Torino's sophisticated air, striking a balance between stalwart and dignified. For a traditional look that harmonizes straight, clean lines with the charm of antique motifs, look no further.

- Elegant classical design with Italian elements
- Soft-close full-extension drawers with dovetail construction
- Soft-close doors with German-engineered hinges
- Solid wood construction fully finished with polyurethane to protect against damage

WARRANTY

All RONBOW products carry a one-year limited Warranty that RONBOW's products are manufactured to be free of defects in material and workmanship during normal residential use when purchased from an Authorized RONBOW Dealer. If a defect is found in normal residential use, RONBOW will, at its election, repair, replace or make appropriate adjustment. Damage caused by accident, misuse, or abuse is not covered by this warranty. Improper care and cleaning will void the warranty. Proof of purchase (original sales receipt) must be provided to RONBOW with all warranty claims. RONBOW is not responsible for labor charges, installation, or other incidental or consequential costs. In no event shall the liability of RONBOW exceed the purchase price of the product.

Damage caused during moving (tipping over) or during installation is not a defect or warranty issue and will not be considered as such. The warranty does not cover product failure caused by abusive treatment, surface scratches, misuse, neglect or damage due to handling or faulty installations. This warranty applies only to the original purchaser and to the original installation of the product. This warranty is void if the product has been moved from its initial place of installation. Defective products or parts will be replaced on a rush and availability basis. This warranty does not apply to local building code compliance. The buyer should check with the local related plumbing codes before installation. RONBOW furniture is made of naturally variable raw materials. Differences in grain character and color among wood and plant species and stones and minerals are naturally occurring variations and are not within the control of the manufacturer nor considered defects under this warranty. Natural color changes, variations, or movements in lumber or veneer products, and exposure to extreme temperature changes and direct sunlight, may cause color changes and/or surface damage and are not covered by this warranty.

Finish and Wood Characteristics
All wood materials may naturally age, darken, change in color, and mellow over time due primarily to light exposure. While this color change is imperceptible from day to day, it may be significant over a longer period of time, and will vary based upon length and intensity of exposure to light. On warranty replacement doors, drawers, or other wood components, we cannot guarantee an exact color match. Additionally, wood imperfections such as checks (small surface splits), pitchpockets (small dark holes) or darker mineral streaks are naturally occurring and are not considered defects.

Bamboo Characteristics
Due to their unique and diverse nature, bamboo products are particularly susceptible to color variance and may differ considerably between dye lots. Please be aware of this variation when selecting bamboo products. This variation also applies to sample swatches, which may vary drastically from the exact color shade you will receive in a finished product. Bamboo color palettes range from neutral grays to warmer browns, all of various lights and darks. Sample swatches provide accurate string and pattern placement examples but their color palette may differ from that of your final bamboo product.

Stone Characteristics
Color variations in stone are a natural occurrence, therefore new and/or replacement pieces may not match display samples and/or existing pieces. Stone products with naturally occurring characteristics such as variation in grain, color, and mineral streaks are not considered defective.
